

PERFORMANCE RIGHT OUT OF THE BOX

Small Business Communications Solution

OfficeServ™ 7100

SIMPLICITY AND SOPHISTICATION

Samsung wireless communications and digital technology experts have engineered an easy-to-install, economical, business communications solution with converged IP capabilities and performance built right in.

Now, small businesses can plug into the power of convergence with the **OfficeServ 7100**. A single, compact, platform links wireless and wire line connections, voice and data— providing connectivity and substantial cost savings from all-in-one technology.

The **OfficeServ 7100** has everything you need to get started. It's prepackaged, preprogrammed and pre-labeled — just unpack and plug in. Your business communications system will be up and running with voicemail and auto attendant ready to go! Traditional voice, utilizing digital or VoIP, is supported with a full set of features and sophisticated applications.

A COMPACT HARDWORKING SYSTEM THAT EXPANDS WITH YOUR BUSINESS

Your investment allows you to pay for what you need today and expand your communications platform tomorrow. The **OfficeServ 7100** can expand along with your business in 4-port increments and is capable of handling up to eight incoming lines with as many as 32 stations.

As your business demands it, VoIP applications (IP phones/IP networking/remote workers) and wireless technology can be enabled to provide your business with a powerful converged solution for voice and data, wired and wireless phones, faxes, and up to 4 data devices with PoE (Power over Ethernet).

The **OfficeServ 7100** comes out of the box complete with 6 pre-labeled Samsung digital iDCS28 phones with large, easy to read displays.
